Bill and Isabelle:

Thank you for your participation in Community Health Network of Connecticut, Inc.'s (CHNCT) *Healthy Minds, Healthy Bodies Day* at Columbus School in Bridgeport. We appreciate your involvement in the event, which celebrated the reading achievements of 750 students during a fun-filled day of educational activities that promoted nutrition, health and safety.

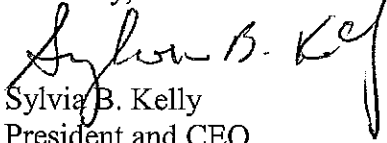

Since our public awareness campaign began in March, close to two thousand Connecticut residents received free smoke detectors, fire extinguishers, child safety seats and bike helmets. Additionally, thanks to our media sponsors, *Connecticut Parent Magazine* and WTNH News Channel 8, statewide readers and viewers received health and safety education, as well as valuable tips to improve the quality of their lives.

While this letter expresses my personal and sincere gratitude for your assistance and collaboration, you will find CHNCT's public note of appreciation published on WTNH.com where your organization is acknowledged for its support. Simply go to www.WTNH.com, click on "Community Page," then CHNCT's logo to find your organization listed.

Channel 8's Community Page receives several million visitor "hits" per month. So, it is my hope that your organization receives the public recognition it deserves for its community-mindedness.

Have a safe and enjoyable summer!

Sincerely,

Sylvia B. Kelly
President and CEO

Community Health Network of Connecticut, Inc.
